SUMMARY

Enthusiastic Data Science Student with a strong background in SQL, Excel and BI tools like Power BI, complemented by a deep business mindset. Proven experience in translating complex datasets into clear insights to enhance decision-making processes and drive business growth.

Project

Tata Data Visualisation: Empowering Business with Effective Insights

Tata

July 2023

- Completed a simulation involving creating data visualizations for Tata Consultancy Service
- Prepared questions for a meeting with client senior leadership
- Created visuals for data analysis to help executives with effective decision making

Accenture North America Data Analytics and Visualization

Accenture

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture
- Cleaned, modelled and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions
- Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders

Stock Price Predictor

- Interactive charts let you visualize forecasted trends, and we break down the forecast into components for deeper insights.
- We fetch the latest data from Yahoo Finance in a flash. Then, we show you a snapshot of recent performance, up to the present day. Knowledge is power!

EDUCATION

Bachelor's degree in Computer Science Engineering(Data Science)

Noida Institute of Technology and Engineering

2022 - 2026 Greater Noida, I

STRENGTHS

Data Analysis Proficiency

Transformed complex data into understandable reports

Business Mindset

Effectively leveraged business requirements to influence data-driven strategies and achieve business goals.

Communication

Excels in presenting complex data in understandable terms, facilitating collaboration across departments.

SKILLS

Programming Languages: Python, C++, Java , JavaScript (learning), R (Learning)

Data Analysis Tools: Power BI, Microsoft Excel, SQL

Other Skills: Data Cleaning, Data Visualization, Decision Making,

CERTIFICATION

Python for Data Science, AI & Development

IBM

Data Analysis with Python

IBM

Data Visualization Using R

Infosys

Python Project for Data Science

IBM

Basic Data Descriptors, Statistical Distributions, and Application to Business Decisions

Rice University

PASSIONS

Data Visualization

Especially passionate about finding the stories hidden in large datasets.

Tech Advances

Regularly exploring and learning the latest technologies and their application in data
